Community Builder Project Video

Purpose: To present your group's project from beginning to end in a narrative format. Included in this are:
1. explanation of the purpose and goals for your group
2. description of how you used the design process
3. overview of each member's role & accomplishments
4. clear explanation of what you created, how it is meant to function, the results of your field testing, and how those impacted your redesign plans

 Videos should be high quality, professional and well thought out.

Physical Requirements:
1. 2-3 minutes long
2. Edited and soundtracked using the video editing tool of your choice.
3. Uploaded to YouTube
4. Linked to / embedded in the group's Weebly page

Content Requirements:
1. Consists of edited video and photo documentation
2. Follows a clear narrative path of the project from beginning to end
3. Introduces and / or includes all team members and their designated roles
4. Provides a professional and engaging overview of the group's decisions, plans and executions of the project specifics including:
   a. Empathy interviews
   b. Prototype creating/brainstorming
   c. Building Days
   d. Prototype testing
   e. Prototype revision
   f. "Finished" product
5. Demonstrates creative thought and production.
